Subject: Hydro-Seal in Changsha

To whom it may concern,

We, Quest Construction Products, LLC., hereby to declare that we don't have any business relationship with Hydro-Seal in Changsha.

It brings to our attention that Hydro-Seal in Changsha still claims that they belong to Hydro-Stop with a letter from 2006. Please note that Quest Specialty Chemicals currently owns both United Coatings and Hydro Stop, which make up the Quest Construction Products, LLC. The letter they are referring is invalid for a long time.

Hydro Seal is in Changsha, China, and the products manufactured there have no correlation or association with those manufactured by Quest's group of companies.

Therefore, we are here to reiterate Hydro-Seal and Quest have absolutely no relation. We are not responsible for any products they manufactured.

We hope the above will help to clarify the confusion.

Yours truly,

Hank Wang
